

DN Nagar to Mandale and Wadala to Kasarvadavali Metro corridors MMRDA begins work on Metro-2B and Metro-4 corridors

Mumbai, June 18, 2018 – The Mumbai Metropolitan Region Development Authority (MMRDA) has begun to implement two Metro corridors – DN Nagar to Mandale Metro-2B and Wadala to Kasarvadavali Metro-4 – and is seeking support from Mumbaikars for the smooth and hassle-free implementation.

The implementation will involve preliminary civil work such as survey, geo-technical investigation, utility identification, test-piling etc. during the monsoon. The Authority will also be installing necessary barricading along the alignment at various locations for the safety of people while seeking their cooperation as far as restricted areas are concerned – especially with regard to children who at times are let off unaccompanied.

The various Metro projects that are being implemented are aimed at easing commuting woes – in Mumbai and Thane, in this case. MMRDA also expects people's feedback and or concerns with regard to barricading at 022-26594176 and 022-26591241.
