

**Statement by Mr.Dilip Kawathkar, Joint Project Director (PR),
MMRDA –**

In an unfortunate incident near Thakur Complex, Kandivli, while fixing 3-meter high bottom shutter with Hydra crane at 11.30 am the reinforcement cage got slightly bent and touched the roof of a BEST bus owing to sight constraints despite providing with wire sling block from all four sides. The MMRDA team working on the Andheri (East) to Dahisar (East) Metro-7 corridor immediately removed the pier reinforcement to a safe place. There was no injury caused to anyone.

MMRDA has instructed the General Consultants to investigate into the matter immediately.
